

HE IS VERY SICK

CONGRESSMAN WILSON DOWN WITH THE TYPHOID FEVER.

Startles His Son in Washington by Telegraphing Him to See That the Premium on His Life Insurance Policy is Paid Up Right Away—Mr. Wilson is Now at the Warm Springs Near City of Mexico.

WASHINGTON, Feb. 24.—William H. Wilson, son and private secretary to the congressman, received a dispatch from his father, asking that the premium on his life insurance policy, due Feb. 27, be looked after. While there was nothing unusual about the request, it was taken as rather suggestive by Mr. Wilson, Jr., and he is quite uneasy. The last heard from the family was by letter from Kansas City, as the party was about to depart for Mexico. At that time Mrs. Wilson said that her husband appeared to have thrown off all the ill-effects of his first attack. Young Mr. Wilson communicated his fears to some of his father's friends, and thought best that the son should leave for Mexico unless some word were received very soon. As against his worst-odds system, there is still a possibility of his friends that will carry him through the present ordeal.

WASHINGTON, Feb. 24.—A telegram from Consul General Crittenden says that Congressman Wilson is now ill with typhoid fever. The fever, according to Dr. Prevost, is now in its fourth or fifth day, and must have developed about the time Mr. Wilson left Kansas City. Mr. Wilson was ill when he arrived in the City of Mexico, and went at once to the springs at Aguascalientes to recuperate, thinking there was nothing more the matter with him than a temporary break down from overwork. At the springs, however, instead of improving, Mr. Wilson became worse. Consul General Crittenden was then called upon to recommend a physician. He sent down Dr. Prevost, who pronounced it a case of typhoid fever, and immediately ordered that the patient be removed to Guadalupe. This was on Thursday last, and that place was reached this afternoon. Dr. Underwood and a trained nurse are constantly in attendance upon the sick man.

At the springs, there is no doubt in the mind that Mr. Wilson contracted the germ of the disease in the subcommittee room in the basement of the building at Washington, where he has been hard at work for months preparing the tariff bill that bears his name.

WIMAN RELEASED.

Bail Furnished by Charles Deere, the Moline Manufacturer.

NEW YORK, Feb. 24.—Albert G. Cole of the firm of Tracy, Boardman & Platt, who are lawyers for Ernest Wiman, called at the district attorney's office this morning. After a consultation with Assistant District Attorney Unger, that gentleman dispatched a deputy sheriff to the Tombs prison for Mr. Wiman. He was brought to the district attorney's office immediately, and thence was taken to the rooms of Recorder Smyth, where bail was tendered and accepted.

As soon as he reached the general sessions building, Mr. Wiman took out his card and wrote an order on the American News Company for a number of copies of his book "Chances of Success," which he distributed among the reporters who were waiting in the district attorney's office.

Recorder Smyth was in his chambers, and when everything was in readiness, he signed the bail bond. Mr. Charles Deere, who is a rich manufacturer of Moline, Ill., and who is the father-in-law of young William D. Wiman, who is lying dangerously ill, went to the city chamberlain's office this morning. He was accompanied by Albert G. Cole of the firm of Tracy, Boardman & Platt, and those who had been with him on his trip to Mexico. He deposited twenty-five \$1,000 bills. Assistant District Attorney Unger, as soon as he received word of the deposit, made out the necessary papers.

When Recorder Smyth signed the bond, the party went to Clerk Carroll's office, and Mr. Deere answered a number of questions. As soon as he had answered them satisfactorily, Clerk Carroll said: "You are discharged, Mr. Wiman."

The released man hurried from the big building accompanied by Mr. Deere, another gentleman, and hastened to his home on Staten island.

Mr. Cole informed the reporters that Mr. Wiman will be called on to plead to the indictments of forgery next Monday at 11 o'clock.

The last paragraph of Mr. Wiman's book, to which he called attention this morning, reads:

"The impress of one's active life on the community in which he resides, for its great and lasting benefit, is not an unhappy thing to look back upon. In achieving a work of genuine worth, as is here going forward, mistakes have been committed. But it is the rounded life of a man that must form the basis of the estimate of his career, or failure. At the final accounting perhaps it will be what he had done, or tried to do, for his fellow man, rather than what he has done for himself, that will be judged. By that standard on Staten island, as elsewhere, the writer of these lines will be content to abide by the verdict."

The following letter in relation to the charges against Mr. Wiman is sent out by his counsel, General Benjamin F. Tracy, ex-secretary of the navy, in vindication of that gentleman:

"NEW YORK, Feb. 24, 1894. "I have seen for the first time this morning the indictments against Mr. Wiman, and have learned the history of the case and the facts upon which the indictments are founded. I am entirely satisfied, after such an examination, that Mr. Wiman has committed no crime, and unless I am greatly misinformed, the trial will develop state of facts which will show that Mr. Wiman is not only not a criminal, but that he has done nothing that can seriously reflect upon his honor or integrity as a man."

"I am not in the habit of trying my cases in the newspapers, but in view of the extent to which this course has been taken by Mr. Wiman's enemies, and in view of his supposed friends, I think it only just to him that I should make this statement."

(Signed) BENJAMIN F. TRACY.

ENGLISH BIMETALLISTS.

LONDON, Feb. 24.—The Financial News says:

"It is Guatemala today and the other silver countries tomorrow. Default with most of them is a question of time. The world's commerce is reeling to a crisis, yet the mischief from the appreciation of gold has only begun. Bimetallism in England

is gaining converts. It is understood that Mr. Liddell, ex-governor of the Bank of England, is a strong advocate of an international agreement for a joint standard. Bimetallism is no longer the creed of a handful of cranks. Nearly every economist of eminence is on its side. The international conference must be reopened. France, Germany and the United States are anxious that this should be done. Surely our interests are as great as theirs. If, in our pride as the gold mint of the world, we stand aside, the punishment will fall upon our own heads. It depends upon the British Cabinet whether the conference be fruitless or not."

MEXICO IN TROUBLE.

CITY OF MEXICO, Feb. 24.—The sharp decline in silver yesterday on the London market sent exchange to unprecedented figures. London exchange was quoted at 24 pence per dollar and New York exchange at 41.00, rising an hour later two points. The situation is exceedingly grave. Bankers fear a further decline. A number of dealers in European goods, who buy on six months' time direct from European manufacturers, find their position very precarious, having experienced an increase of 50 per cent in exchange since their goods were bought, thereby wiping out their profits.

The position of the large French houses in the dry goods trade, who are large importers of silks, fine prints, ginghams, etc., from Europe, is bad. The consumption of this class of goods has been steadily declining as exchange has gone up.

The government has strained every resource and introduced every possible economy, in order to meet its gold interest and keep faith with public creditors; but it cannot accomplish impossibilities. It has been suggested that the government place at the disposal of the bondholders its cross produce in silver dollars derived from assignments on revenue for the payment of its debt and interest.

WHY NOT COUNT THEM.

Another Plan Proposed to Make Fill-busters Vote.

WASHINGTON, Feb. 24.—The call for a caucus of the Democrats to agree upon a plan for recording members present but not voting, in order to make a quorum, is growing in favor. The call now bears the name of 123 Democrats. It was handed to Representative Holman today, the chairman of the caucus. The members say that this matter must be settled within their party as soon as the bill has been disposed of.

Representative Paynter of Kentucky, who started the call, has drawn up a new rule, which he thinks overcomes the objections of many members to his draft of a rule for recording those present and not voting, without having them. This rule incorporates a new principle, that the affirmative votes on a call must be a majority of those officially recorded, both as voting and as present and not voting, in order that the vote shall be a legal one to decide the pending questions. The rule is as follows:

"That should a quorum fail to vote and the point be made that no quorum has voted, there shall be a call of the house, and the yeas and nays on the pending question shall at the same time be ordered. The clerk shall call the roll, and each member, as he answers to his name, or is brought before the house under the proceedings of the call of the house, shall vote on the pending question. If he refuse to vote or refuse to answer to his name, then any member can announce to the speaker that the member is present and failed to vote or answer on such call; whereupon the speaker shall direct the clerk to note the name of such member on the journal as present. If those voting on the question and those declining to vote or answer to their names shall together make a majority of the house, then the speaker shall declare that a quorum is constituted, and the pending question shall be decided, provided the affirmative vote is a majority of those voting and those present and not voting."

Three propositions for a new rule have been drawn, which will find supporters in the caucus—that devised by Journal Clerk Crutcher for filling members one day's pay; the resolution by Representative De Armand of Missouri, for a fine of \$50, and the latest plan of Representative Paynter. But none of these can be made effective for breaking the present deadlock, because the caucus will not meet until the bill is disposed of in some way.

AN ARCTIC EXPEDITION.

WASHINGTON, Feb. 24.—An Arctic expedition, with the north pole as its objective point, has been discussed here this week, and will start on its journey soon. Walter Wellman, who, for some years, has been a prominent newspaper correspondent here, representing the Chicago Herald, is the projector and leader of the enterprise. In the party are three other Americans—Professor Fenon of the coast and geologic survey, who goes as the scientific observer; Dr. Thomas B. Mohr of this city, as medical officer; and Charles C. Dodge of the navy department, as artist and photographer. The expedition goes by the way of Norway and Spitzbergen.

THE MICHIGAN SALARIES FRAUD.

MASON, Mich., Feb. 24.—Attorney General Ellis Treasurer Hamilton, Land Commissioner Berry and Deeks Potter and Bussey came voluntarily from Lansing today with their attorneys and sureties, to plead not guilty to the various charges against them of forgery, miscounting and other corrupt practices in connection with the false returns on the state salaries amendment. The other five defendants did not appear.

At 10 o'clock, the grand jury filed into court and presented the six indictments to Judge Peterson, after which the defendants' attorneys present announced that their clients would plead not guilty without waiving their rights to attack the indictments, which was done. Bail in the sum of \$5,000 each was fixed as to Joachim, Hamilton, Berry and Ellis on each of the two separate indictments. Clerks Warren and Potter's bail was made \$10,000 and Berry's \$10,000. The County Clerk May of Detroit was placed at \$10,000 on his indictment for stealing the Detroit returns. Besides these each was required to furnish bail of \$1,000 under the conspiracy indictment.

Those present furnished bonds, and the others will probably do likewise on Monday. All of the accused joked, and made light of their dilemmas.

GLORIFY THE NUDE.

Exhibition by American Artists Will Have This for an Object.

Hundreds of Masterpieces—There Will Be a Representative Assemblage of Statues and Paintings—Rebuke for the Senate Committee.

UDITY as an inspiration in the formation of artistic standards will be the predominant influence in the coming national exhibition of the Society of American Artists, which will be held in the galleries of the American Fine Arts society, at No. 215 West Fifty-seventh street, in New York city, from Monday, March 12, to Saturday, April 14, inclusive. The subject of the nude acquires a special prominence this year in view of the now famous condemnation by the senatorial committee of the figure submitted for a prize medal to the government by Augustus St. Gaudens. Mr. St. Gaudens is now looked upon as a martyr by his co-workers and he has been put upon the committee of selection for the coming display in the jury which awards the premiums of excellence at the exhibition.

It is not to be supposed that the hundreds of specimens of the work of American artists which will be shown are to comprise only studies in the nude. But the artists have arranged what they consider the most fitting rebuke to that narrowness of spirit which, according to themselves, would exclude the beautiful because it comes unclothed. The very catalogue of the society runs to the nude, as the accompanying pictures from it show, and there is a marked tendency on the part of all the exhibitors, whether they submit specimens of statuary or of painting, to work in the nude. Hence this year's exhibition will be to that extent unparalleled in the nature of its inspiration.

The list of exhibits will not be officially completed until the first week in March. Varnishing day will be Friday, March 2, and on that day exhibits

specimens exhibited, and hence the wearisome iteration of familiar pictures and statues will, it is hoped, be avoided. But in the selection of a theme the artists are entirely at liberty. Hence the preponderance of the nude and of those subjects which are usually not attempted until late in a career. There are also countless details studies after Bouguereau and Corot. Secretary Joe Evans anticipates that the exhibition will be a source of great encouragement to the younger artists. It is superfluous to point out that heretofore the complaint has been that young Americans have been at hopeless odds, as regards native appreciation, with the artists of foreign lands. This year, however, there promises to be an improvement. This, as has already been hinted, is one of the results of the world's fair.

As to the result of the exhibition, with reference to the charges of indecency brought against one of the most eminent American artists, there can be only one result, in the opinion of the connoisseurs. Mr. St. Gaudens will be triumphantly vindicated. There will be no clothes on the young men who will look out upon the public from the canvas and the marble at the great building of the American society.

The Reason Why We Left.

"Why, you haven't left your place, Mary?"

"Yes, I have."

"Bless me. Why everybody who has lived with Mrs. Blank gives her a good name."

"Yes, her hats ain't becoming to me."—Texas Siftings.

MODEL FOR DETAIL WORK.

(Bouguereau.)

Accepted work can be removed until the close of the exhibition and all works must remain as placed by the hanging committee. It is hoped that no artist will be foolish enough to rely upon the alleged "pulls" of particular individuals, as such conditions do not exist in this show. Included in the committee of selection are Herbert Adams, J. Carroll Beckwith, Augustus St. Gaudens, Edwin H. Blashfield, Robert Blum, George DeForest Brush, William M. Chase, Kenyon Cox, John La Farge and other prominent artists.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."—Dr. G. C. Osceola, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."—Dr. J. F. Knickerbocker, Conway, Ark.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."—H. A. Archer, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."—UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

The Centaur Company, 77 Murray Street, New York City.

COMBINED.

The Kansas State Medical and Surgical Institute and Sanitarium, Dr. Terrill President and the Wichita Medical and Surgical Institute and Eye and Ear Infirmary, Dr. Purdy Proprietor and Surgeon in chief, have combined the two institutions which will be known hereafter as the Terrill-Purdy Medical and Surgical Institute, and Eye and Ear Infirmary. The above is a cut of the instrument used at the Terrill-Purdy Institute for the examination of catarrh and all nose and throat diseases. Instruments and medicine furnished for home treatment. A written guarantee in every case.

DISEASES OF WOMEN—Dr. Terrill has made Diseases of Women a specialty for the past twenty years, and has taken several courses of private instruction in gynecology under some of the leading specialists of the east. The wonderful curative effects of Electricity in the diseases of women are daily demonstrated by Dr. Terrill at the Institute.

Localities, Displacements, Enlargements, Irregular and Profuse, Suppressed, or Painful Periods, Vaginitis, Discharges, Etc., positively cured by our new treatment. Fibroid Tumors cured by Electricity.

NERVOUS DISEASES—Dr. Terrill wishes to call the attention of those suffering from Nervous Diseases, Paralysis, Nervous Prostration, Spinal Weakness, Etc., to the wonderful curative effects of Electricity when scientifically applied.

TO YOUNG AND MIDDLE AGED MEN. The curative effects of early use which brings organic weakness, destroying both mind and body permanently cured.

A SURE CURE. We guarantee to cure you or no pay.

RHEUMATISM—Positively cured by the aid of electricity.

NEURALGIA, SCIATICA—And all neural diseases cured. No knife, no pain. Cure guaranteed.

URTHRAL STRICTURE—Quickly and permanently cured by Electrolysis. No cutting, no pain, no money refunded.

SYPHILIS—That dread disease of mankind quickly and permanently cured by a new treatment without the poisonous drugs of by-gone days.

OUR EYE AND EAR INFIRMARY.

In charge of Dr. Purdy. Cataract removed and sight restored after years of blindness. Cross Eyes straightened, Pterygium removed. Granulated Lids cured (or no pay) and all forms of Sore Eyes treated. Glasses scientifically fitted. Many cases of Headache, Dizziness, Nervous Prostration, Etc., are due to defective vision, are relieved by suitable glasses.

Besides the above we treat and cure the following diseases:

Asthma, Consumption, Brounchitis, Neuralgia, Skin Diseases, Dyspepsia, Heart Disease, Hay Fever, Measles, Whooping Cough, Etc.

Diseases of the Kidneys, and Bladder Diseases of the Sexual Organs, Private Diseases of Men and Women.

SURGERY—Among the diseases successfully treated we name the following: Dermatitis of all kinds, Curvature of the Spine, Warts, Scalding, Ring Worm, Lip Tumors, Cancer, Ulcers, Fibroid Tumors of the Womb, Ovarian Tumors, Rupture, Hydrocele, Etc.

VARICOCELE—Dr. Purdy's method is new and original, no cutting, no detaching from business, no cure guaranteed or money refunded. Since adopting this method less than two years ago the doctor has a record of over 50 cases treated without a single failure.

Consultation and examination free and invited. Send for book and question blank.

Address the TERRILL-PURDY MEDICAL INSTITUTE, 158 North Main Street, Wichita, Kansas.

REAL ESTATE.

(Furnished by Applegate & Mallory.

Abstracts.)

The records in the register of deeds office show the following:

T. A. Williams w.d lot 29 block 4 Mt.

Hope Kan. 1000

S. M. Seagrave w.d lot 1921 Emporia

ave. Range and lot 2309

C. W. Ransom lots 6-9 104 ave Well

mans add. 1400

Amount of mortgage released 769

New bicycles.

Wichita wheelmen and prospective wheelmen have been anxiously awaiting the arrival of Mr. A. M. Carr, 238 North Main street, has received samples of both No. 7 and No. 8, Remblers. The former is the all-around wheel for 94¢ with the No. 8 is the lightest, strongest, weight 24½ pounds as shown at Mr. Carr's store. Special features this year are a new tread of 5½ inches, detachable front and rear sprockets, new front fork crown, wood rims as well as improved steel ones; a new fabric, especially easy detaching, pneumatic tire, fender, brake, dust-proof pedals, new stationary tool bag, new saddle of lighter design and adjustable. Also other minor improvements that go to make up a mighty fine piece of mechanism. Mr. Carr will be pleased to explain to you all these little and big points that so delight a wheelman and tend so much toward strength and lightness and interchangeability. Remember the number, 238 North Main street.

Important—Mrs. Hirsch's celebrated home-made bread, pies and cakes are sold at Watkins' dry goods and notion store, 336 North Main.

Just received—A lot of Butterfield soap at Watkins' dry goods and notion store, 336 North Main.

Advocate Members.

Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle. Used by millions of mothers.

The Western Trail is published quarterly by the Chicago, Rock Island and Pacific railway. It tells how to get a farm in the west, and it will send you grain for one year. Send name and address to "Editor Western Trail," Chicago, and receive it for one year free.

147 1/2

High Five or Tenner Parties Should send at once to John Sebastian, general ticket agent, Chicago, Rock Island and Pacific railroad, Chicago. Twenty-five cents a bottle. Used by millions of mothers.
